Google

Senior Visual Designer, 2013 — 2020

I spent 3 years on the Google Search team working on design systems and the Google Weather App. For the past four years I've worked on Google Doodles building delightful and educational interactive experiences for the Google homepage.

Code for America

Fellow, 2012

I was part of the 2012 Code for America fellowship class. I worked with the City and County of Honolulu to develop open source technologies for local governments.

United States Marine Corps

Sergeant / Intelligence Analyst, 2004 – 2010

I served as a Marine for 6 years with one deployment. My time in the Marines taught me how to lead but also equally important, how to follow great leaders.

Education

University of Texas at Arlington — BFA Graphic Design

Savannah College of Art + Design — Graduate coursework
